

## Is the CHAMPION-AF Trial right for me?

The CHAMPION-AF clinical trial aims to generate evidence that may provide a first choice alternative option to blood thinners for patients with AFib, not caused by a heart valve problem, who would not be eligible to receive a WATCHMAN FLX™ Implant device with the current indication.

**The below questions will help you start a conversation with your heart doctor about if the CHAMPION-AF clinical trial may be right for you.**

**I have been diagnosed with Atrial Fibrillation (Afib) not caused by a heart valve problem (i.e. non-valvular Afib).**

Yes  No

**I have been prescribed a blood thinner in the past for my non-valvular Afib?**

Yes  No

**Age:**  <65  65-75  >75

**Gender:**  Male  Female

**How would you describe yourself?**

- |  |   |
|--|---|
| <input type="radio"/> American Indian or Alaska Native | <input type="radio"/> Native Hawaiian or Other Pacific Islander |
| <input type="radio"/> Asian                            | <input type="radio"/> White or Caucasian                        |
| <input type="radio"/> Black or African American        | <input type="radio"/> Other                                     |

**I have been diagnosed with the following conditions: (select all that apply)**

- |  |  |
|--|--|
| <input type="radio"/> Congestive Heart Failure               | <input type="radio"/> History of Stroke(s) |
| <input type="radio"/> Hypertension (elevated blood pressure) | <input type="radio"/> Vascular Disease     |
| <input type="radio"/> Diabetes                               |  |

**Check any of the following that apply to you:**

- I currently take a blood thinner
- I have experienced bleeding and/or other side effects because of blood thinner medication
- I have concerns about lifestyle tradeoffs related to blood thinners
- I would like an alternative option to blood thinners, like WATCHMAN

**I am open to learning more about potential clinical trial eligibility**

Yes  No

For more information, or to find out if you're an appropriate candidate for the CHAMPION-AF clinical trial schedule an appointment with your heart doctor and visit [watchman.com/champion-af-patient](https://watchman.com/champion-af-patient)

WATCHMAN FLX™ is an FDA approved device being studied for an expanded indication as a first line therapy vs NOAC for NVAf patients. The use of WATCHMAN or WATCHMAN FLX™ as a first-line therapy for stroke risk reduction in NVAf patients is considered investigational.

**Caution:** Investigational Device. Limited by US law to investigational use only. Not available for sale.
