

Rezūm nights without bathroom breaks.

Rezūm™ Water Vapor Therapy is an alternative to surgery. It treats the cause of your BPH by reducing prostate tissue, so you can get back to your life.

Waking up at all hours to urinate?

Weak stream?

Having the urgent need to go?

Tired of the side effects from BPH medications?

Why choose Rezūm Water Vapor Therapy?

If you're suffering from an enlarged prostate or BPH, Rezūm Therapy offers many benefits.

Clinical studies show that Rezūm Therapy relieves symptoms safely/effectively^{1,2}

Symptom relief that lasts¹

Does not require general anesthesia¹

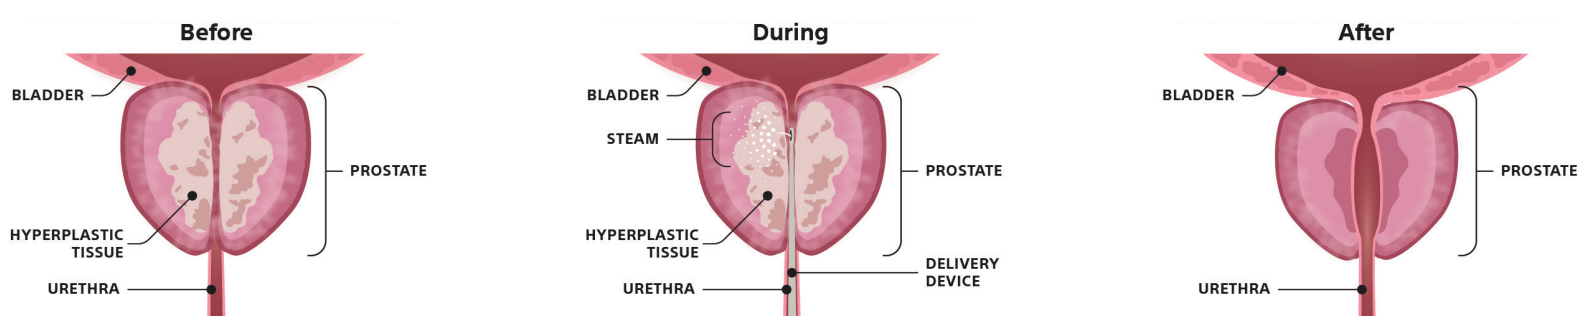

No permanent implant

Preserves sexual function¹

FDA cleared

The number of water vapor treatments varies depending on the size of the prostate. The procedure is done during one appointment. The images are intended to show how the procedure works, not to provide an exact representation of patient results.

Rezūm leading your life to the fullest. Why wait?

Visit Rezūm.com or talk to your doctor about the benefits, risks and see if Rezūm is right for you.

Potential risks associated with Rezūm Water Vapor Therapy include but are not limited to painful or frequent urination, blood in the urine or semen, decrease in ejaculatory volume, urinary tract infection (UTI), inability to urinate or completely empty the bladder, urgent need to urinate, and need for short-term catheterization.
