

# 2015 CPT Code Crosswalk for The S-ICD™ System (Subcutaneous Implantable Defibrillator)

The S-ICD™ System (Subcutaneous Implantable Defibrillator) procedures are reported in 2014 using Category III CPT Codes 0319T-0328T. **The American Medical Association has published new Category I CPT codes for all S-ICD procedures effective January 1, 2015.** S-ICD Category I CPT Code Relative Value Units (RVUs) will be published as part of the Medicare Physician Fee Schedule Final Rule in early November of 2014. The following table is a CPT Code 2014 to 2015 crosswalk.

## S-ICD CPT Code 2014 to 2015 Crosswalk

2014 Cat. III CPT	2015 Cat. I CPT	Category I CPT Description
0319T	33270	Insertion or replacement of permanent subcutaneous implantable defibrillator system, with subcutaneous electrode, including defibrillation threshold evaluation, induction of arrhythmia, evaluation of sensing of arrhythmia termination, and programming or reprogramming of sensing or therapeutic parameters, when performed
0320T	33271	Insertion of subcutaneous implantable defibrillator electrode
0321T	33240*	Insertion of implantable defibrillator pulse generator only; with existing single lead
0322T	33241*	Removal of implantable defibrillator pulse generator only
0323T	33262*	Removal of implantable defibrillator pulse generator with replacement of implantable defibrillator pulse generator; single lead system
0324T	33272	Removal of subcutaneous implantable defibrillator electrode
0325T	33273	Repositioning of previously implanted subcutaneous implantable defibrillator electrode
0326T	93644	Electrophysiologic evaluation of subcutaneous implantable defibrillator (includes defibrillation threshold evaluation, induction of arrhythmia, evaluation of sensing for arrhythmia termination, and programming or reprogramming of sensing or therapeutic parameter)
0327T	93261	Interrogation device evaluation (in person) with analysis, review and report by a physician or other qualified health care professional, includes connection, recording and disconnection per patient encounter; implantable subcutaneous lead defibrillator system
0328T	93260	Programming device evaluation (in person) with iterative adjustment of the implantable device to test the function of the device and select optimal permanent programmed values with analysis, review and report by a physician or other qualified health care professional; implantable subcutaneous lead defibrillator system

\*Revision to existing CPT code

Health economic and reimbursement information provided by Boston Scientific Corporation is gathered from third-party sources and is subject to change without notice as a result of complex and frequently changing laws, regulations, rules and policies. This information is presented for illustrative purposes only and does not constitute reimbursement or legal advice. Boston Scientific encourages providers to submit accurate and appropriate claims for services. It is always the provider's responsibility to determine medical necessity, the proper site for delivery of any services and to submit appropriate codes, charges, and modifiers for services that are rendered. Boston Scientific recommends that you consult with your payers, reimbursement specialists and/or legal counsel regarding coding, coverage and reimbursement matters. Boston Scientific does not promote the use of its products outside their FDA-approved label.
