

## **Cystoscopy-Based Procedures**

### 2024 Coding & Payment Quick Reference

Payer policies will vary and should be verified prior to treatment for limitations on diagnosis, coding, or site of service requirements. The coding options listed within this guide are commonly used codes and are not intended to be an all-inclusive list. We recommend consulting your relevant manuals for appropriate coding options.

The following codes are thought to be relevant to cystoscopy-based procedures and are referenced throughout this guide.

To determine whether there are relevant C-codes for any Boston Scientific products, please visit our C-code finder at <a href="http://www.bostonscientific.com/en-US/reimbursement/ccode-finder.html">http://www.bostonscientific.com/en-US/reimbursement/ccode-finder.html</a>.

C-Codes are tracking codes established by the Centers for Medicare & Medicaid Services (CMS) to assist Medicare in establishing future APC payment rates. C-Codes only apply to Medicare hospital outpatient claims. They do not trigger additional payment to the facility today.

It is very important that hospitals report C-Codes as well as the associated device costs. This will help inform and potentially increase future outpatient hospital payment rates.

	vased Procedures
52000	Cystourethroscopy (separate procedure)
52001	Cystourethroscopy, with irrigation and evacuation of multiple obstructing clots
52005	Cystourethroscopy, with ureteral catheterization, with or without irrigation, instillation, or ureteropyelography, exclusive of radiologic service;
52007	Cystourethroscopy, with ureteral catheterization, with or without irrigation, instillation, or ureteropyelography, exclusive of radiologic service; with brush biopsy of ureter and/or renal pelvis
52010	Cystourethroscopy, with ejaculatory duct catheterization, with or without irrigation, instillation, or duct radiography, exclusive of radiologic service
52204	Cystourethroscopy, with biopsy(s)
52214	Cystourethroscopy, with fulguration (including cryosurgery or laser surgery) of trigone, bladder neck, prostatic fossa, urethra, or periurethral glands
52224	Cystourethroscopy, with fulguration (including cryosurgery or laser surgery) or treatment of MINOR (less than 0.5 cm) lesion(s) with or without biopsy
52234	Cystourethroscopy, with fulguration (including cryosurgery or laser surgery) and/or resection of; SMALL bladder tumor(s) (0.5 up to 2.0 cm)
52235	Cystourethroscopy, with fulguration (including cryosurgery or laser surgery) and/or resection of; MEDIUM bladder tumor(s) (2.0 to 5.0 cm)
52240	Cystourethroscopy, with fulguration (including cryosurgery or laser surgery) and/or resection of; LARGE bladder tumor(s)
52250	Cystourethroscopy with insertion of radioactive substance, with or without biopsy or fulguration

## **Physician Payment - Medicare**

All rates shown are 2024 Medicare national averages; actual rates will vary geographically and/or by individual facility. "Allowed Amount" is the amount Medicare determines to be the maximum allowance for any Medicare covered procedure. Actual payment will vary based on the maximum allowance less any applicable deductibles, co-insurances, etc.

### **Hospital Inpatient Payment - Medicare**

MS-DRG assignment is based on a combination of diagnoses and procedure codes reported. While MS-DRGs listed in this guide represent likely assignments, Boston Scientific cannot guarantee assignment to any one specific MS-DRG.

Possible MS-DRG Assignment	Description	MS-DRG Rate
656	Kidney and ureter procedures for neoplasm with MCC	\$21,968
657	Kidney and ureter procedures for neoplasm with CC	\$12,912
658	Kidney and ureter procedures for neoplasm without CC/MCC	\$10,365
659	Kidney and ureter procedures for non-neoplasm with MCC	\$18,126
660	Kidney and ureter procedures for non-neoplasm with CC	\$9,423
661	Kidney and ureter procedures for non-neoplasm without CC/MCC	\$7,340
668	Transurethral procedures with MCC	\$19,731
669	Transurethral procedures with CC	\$10,745
670	Transurethral procedures without CC/MCC	\$6,740

The patient's medical record must support the existence and treatment of the complication or comorbidity.

Code	OPPS Status Indicator	Description
C1889	N (packaged)*	Implantable/insertable device, not otherwise classified.

On claims for Medicare beneficiaries, hospitals should report not only the appropriate CPT® Code, but also, any appropriate device related C-Code.

- C-Codes are tracking codes established by the Centers for Medicare & Medicaid Services (CMS) to assist Medicare in establishing
  future APC payment rates. C-Codes only apply to Medicare hospital outpatient claims. They do not trigger additional payment to
  the facility today.
- It is very important that hospitals report C-Codes as well as the associated device costs. This will help inform and potentially increase future outpatient hospital payment rates.

Comprehensive APCs (C-APCs): In 2014, CMS implemented their C-APC policy with the goal of identifying certain high-cost, device related outpatient procedures (formerly "device intensive" APCs). CMS has fully implemented this policy and has identified these high cost, device-related services as the primary service on a claim. All other services reported on the same date will be considered "adjunctive, supportive, related, or dependent services" provided to support the delivery of the primary service and will be unconditionally packaged into the OPPS C-APC payment of the primary services with minor exceptions.

Revenue Code 278 Definition in UB-04 manual, National Uniform Billing Committee Summary, August 2009, Page 5: (a) Implantables: That which is implanted, such as a piece of tissue, a tooth, a pellet of medicine, or a tube or needle containing a radioactive substance, a graft, or an insert. Also included are liquid and solid plastic materials used to augment tissues or to fill in areas traumatically or surgically removed. An object or material partially or totally inserted or grafted into the body for prosthetic, therapeutic, diagnostic purposes. Examples of Other Implants (not all-inclusive): Stents, artificial joints, shunts, grafts, pins, plates, screws, anchors, radioactive seeds.

Please note: this coding information may include codes for procedures for which Boston Scientific currently offers no cleared or approved products. In those instances, such codes have been included solely in the interest of providing users with comprehensive coding information and are not intended to promote the use of any Boston Scientific products for which they are not cleared or approved. The Health Care Provider (HCP) is solely responsible for selecting the site of service and treatment modalities appropriate for the patient based on medically appropriate needs of that patient and the independent medical judgement of the HCP.

Health economic and reimbursement information provided by Boston Scientific Corporation is gathered from third-party sources and is subject to change without notice as a result of complex and frequently changing laws, regulations, rules, and policies. This information is presented for illustrative purposes only and does not constitute reimbursement or legal advice. Boston Scientific encourages providers to submit accurate and appropriate claims for services. It is always the provider's responsibility to determine medical necessity, the proper site for delivery of any services, and to submit appropriate codes, charges, and modifiers for services rendered. It is also always the provider's responsibility to understand and comply with Medicare national coverage determinations (NCD), Medicare local coverage determinations (LCD), and any other coverage requirements established by relevant payers which can be updated frequently. Boston Scientific recommends that you consult with your payers, reimbursement specialists, and/or legal counsel regarding coding, coverage, and reimbursement matters. Boston Scientific does not promote the use of its products outside their FDA-approved label. Information included herein is current as of January 2024 but is subject to change without notice. Rates for services are effective January 1, 2024.

Payer policies will vary and should be verified prior to treatment for limitations on diagnosis, coding, or site of service requirements. The coding options listed within this guide are commonly used codes and are not intended to be an all-inclusive list. We recommend consulting your relevant manuals for appropriate coding options.
