

# TRANSFORMING LIVES

[www.bostonscientific.com/graduatesireland](http://www.bostonscientific.com/graduatesireland)

## LIFE IN BOSTON SCIENTIFIC

### FUN AND GAMES FOR CHARITY!

Boston Scientific takes great pride in supporting the communities in which we operate. Our Employee Charity fundraising events are fun and engaging and help transform the lives of many people in the communities in which we live and work.

### YOUNG PROFESSIONAL NETWORK

Each of Boston Scientific's three Irish sites have a Young Professional's Network (YPN). Our YPN plays a key role in helping all new employees settle into life in Boston Scientific. The groups organise welcome events and other activities such as nights out and tag rugby.

## DID YOU KNOW?

In Ireland our key product lines include:

### GALWAY

- Drug Eluting Stents
- Self Expanding Stents
- Structural Heart Valves

### CORK

- Active & Access Catheters
- Occlusion Coils & Microspheres
- Inflation Devices
- Atherectomy Devices

### CLONMEL

- Pacemakers
- Defibrillators
- Spinal Cord Stimulators
- Deep Brain Stimulators

Our **Galway** site is the largest manufacturing facility in Boston Scientific's global network and is also home to an R&D hub that had

**21** successful patent applications last year.

Our Alair™ Bronchial Thermoplasty System manufactured in **Cork** is the only medical device indicated for the

**treatment of severe persistent asthma.**

### 'Everyone Makes an Impact Day'

is an event that sees patients visit Boston Scientific sites to meet the teams that designed and manufactured their life transforming devices.

Our Metal Additive Manufacturing department in **Clonmel** manufactures new components using

**state-of-the-art 3-D metal printing technology.**

Irish Graduates named Boston Scientific as one of the  
**TOP 10 GRADUATE EMPLOYERS IN 2016**

**5,200** employees are based in our Irish sites in **Galway, Cork and Clonmel**

## OUR GRADUATE PROGRAMMES

**Engineering and Science candidates can apply to one of our individual Graduate Programmes based in Galway, Cork or Clonmel.**

Our Programmes are two years in duration. In this time all Graduates will progress through a defined programme getting first-hand knowledge of our business and expand your technical ability in a progressive and innovative working environment. In addition to on-the-job training and personal development courses you can also avail of mentoring from senior colleagues. This programme offers unique opportunity to grow and accelerate your future career.

In Boston Scientific everyone makes an impact. Everyone has a part to play. Apply today!

Every **5 seconds** one of the **9 million**

devices designed and manufactured in one of our Irish sites is used in a life transforming procedure somewhere in the world.

## MEET SOME OF OUR GRADUATES

### EOGHAN KAVANAGH

**Manufacturing Engineer, BSC Cork**

B.E. Biomedical Engineering, University of Limerick

"The Graduate programme has provided me with a great opportunity to continuously improve my problem solving, project management and communications skills."

### FIONNUALA O'GORMAN

**R&D Engineer, BSC Galway**

M.Sc Bioengineering, Trinity College Dublin

"The most rewarding aspect of what we do in Boston Scientific is seeing how the products we design, develop and manufacture improve the quality of patients' lives."

### YVONNE DWYER

**Industrial Engineer, BSC Clonmel**

M.Sc Mechanical and Manufacturing Engineering, Trinity College Dublin

"My job has given me so many opportunities – the positive atmosphere and the team collaboration means that I am always learning something new and getting more experience."

### SHANE O'CONNOR

**Manufacturing Engineer, BSC Galway**

B.E. Mechanical Engineering, University of Limerick

"I have always wanted to join something that I am passionate about, and Boston Scientific has given me the opportunity to help people recover from illness and live independently."
