

# HIS PROSTATE. YOUR PROBLEM.

When his enlarged prostate wakes you up multiple times throughout the night, we can help put your problem to rest.

Our experts offer an outpatient laser therapy that treats the symptoms of his enlarged prostate—such as frequent urination at night—so you can both sleep peacefully.

All surgical treatments have inherent and associated risks. The most common risks associated with GreenLight™ Laser Therapy are: hematuria; short term dysuria; and, urinary tract infections. You should talk with your doctor about benefits and risks before moving forward with any treatment option.
