

**DID YOU KNOW,  
NOT BEING ABLE TO  
GET AN ERECTION IS  
LIKE GETTING A 5-YEAR  
ADVANCED WARNING  
OF A POTENTIAL  
HEART ATTACK<sup>1,2</sup> ?**

1 in 2 men with diabetes  
is suffering with erectile  
dysfunction (ED)<sup>3</sup>

Symptoms of heart  
disease will develop within  
2-3 years of ED<sup>1,2</sup>

Within 3-5 years of ED, a  
cardiovascular event, such as a  
heart attack, will likely occur<sup>1,2</sup>

## GO TO EDCURE.ORG

### TO LEARN MORE ABOUT THE LINK BETWEEN ED, DIABETES AND HEART DISEASE

Go to [EDCure.org](https://www.edcure.org) to take the online ED quiz. The severity of cardiovascular disease is linked to the severity of ED.<sup>2</sup>

Talk to your doctor TODAY if you have diabetes or ED - you could prevent a future heart attack or stroke.
