CUSTOMER ORDERING INFORMATION

Product Codes

For customer convenience, the Boston Scientific ordering system accepts the UPN (Universal Product Number) e.g., H749 **392520835 0** found on product labeling as well as Boston Scientific's old catalog numbers e.g., 39252-0835. Please use either one of these numbers when placing an order via phone, fax, internet, or Electronic Data Interchange (EDI). For those customers who scan product today, Boston Scientific is moving to the GS1 GTIN barcode and labeling standards as part of our ongoing commitment to improve supply chain efficiency.

Boston Scientific Customer Service Representatives will be happy to help you with any questions. We are eager to make the ordering procedure as simple and efficient as possible.

Standing Orders

Boston Scientific accepts standing orders on all products. This convenience provides you with scheduled shipments using a single purchase order. Contact the Customer Service Contracts Department at 1.800.862.1252 for details.

Customer Service

Customer Service is available between the hours of 8:30 am and 9:30 pm (Eastern Time) weekdays excluding national holidays. Our toll-free fax number, 1.888.272.9444, is available at all times. In addition, technical and emergency service is available 24 hours a day, 7 days a week, call 1.888.272.1001 for further instructions. Billing Inquiries can be directed to 1.888.272.9422.

Terms

Terms are Net 30 Days. All shipments are F.O.B. Quincy, Massachusetts. Prices are subject to change without notice.

Returned Goods

Permission to return merchandise is required for all returns. All items must be in unopened packages and must have at least 6 months of dating. Timeframe for return is 90 days from shipment date. Merchandise returned within 90 days will receive full credit. Merchandise returned after 90 days will be subject to a 10% restocking charge. Material that has been opened, damaged or tampered with is not returnable for credit. Products manufactured as SPECIAL or CUSTOM products are not returnable for credit. All merchandise returned to Boston Scientific must be accompanied by a copy of the packing slip or invoice enclosed with the original shipment. The Returned Goods Authorization (RGA) number must be clearly marked on the shipping container. Merchandise returned without an RGA number will not be accepted or considered returned.

To Return Goods

- Contact Customer Service for a return authorization number at 1.800.862.1284.
- For product complaints, please call 1.800.811.3211.
- Identify the customer account number, catalog number, size, quantity, lot number, invoice number, and the reason for the return.
- Clearly identify the RGA number on your shipping paperwork.
- Ship product returns to:

Boston Scientific Corporation
Attn: Returns Department, RGA#
500 Commander Shea Blvd.
Quincy, MA 02171

NOTICE REGARDING SPECIFICATION CHANGES: As we are continually improving our products, the equipment supplied may not agree in all details with the description and specification shown in the product catalog. All specifications are subject to change without notice. Federal (USA) law restricts these devices to sale by or on the order of a physician. Indications, contraindications, and instructions for use, as well as product warranty information, can be found in the product labeling supplied with each device.

WARNING REGARDING SINGLE USE DEVICES: Products marked as “single-use” are for single use only. Do not reuse, reprocess or resterilize single-use products. Reuse, reprocessing or resterilization may compromise the structural integrity of the device and / or lead to device failure which in turn may result in patient injury, illness or death. Reuse, reprocessing or resterilization may also create a risk of contamination of the device and / or cause patient infection or cross-infection, including, but not limited to, the transmission of infectious disease(s) from one patient to another. Contamination of the device may lead to injury, illness or death of the patient. Boston Scientific assumes no liability with respect to single-use devices reused, reprocessed or resterilized and makes no warranties, express or implied, including, but not limited to, any implied warranties of merchantability or fitness for a particular purpose, with respect to any such instrument.

C-Codes for Boston Scientific Interventional Cardiology Products

The reporting of C-codes on hospital outpatient claims is critical to ensure appropriate coding for device-related procedures as well as appropriate levels of reimbursement. Medicare and also private payers use C-codes to track the cost of medical devices used during a hospital outpatient procedure that is billed under the Hospital Outpatient Prospective Payment System (OPPS). While separate reimbursement for devices is not driven by C-code use unless it is approved as a new technology add-on payment device, Medicare sets new hospital OPPS rates using hospital claims and cost data and the use of a C-code to report the device will ensure that the device's costs are included.

This product catalog cross-references Boston Scientific products to CMS associated Category C-codes. Medicare does not have a C-code category for all Boston Scientific Interventional Cardiology products. The letters 'N/A' will appear to denote products without a Medicare assigned C-code.

To Access Current C-code and Reimbursement Information Visit

www.bostonscientific.com/reimbursement

Changes to Centers for Medicare and Medicaid Services C-code Policy

Effective January 1, 2005, Medicare identified a number of device-dependent Ambulatory Payment Classifications (APC) that would require C-code reporting for outpatient procedures to pass C-code edits. This requirement was enforced beginning April 1, 2005, when CMS began to review claims at the CPT™/HCPCS code level. While CMS has changed the requirement since implementation, in 2015 certain APCs that are considered device dependent require the use of C-codes or they will be denied and returned to the provider. C-codes are required for most of the interventional cardiology procedure associated APCs.

PLEASE NOTE: Health economic and reimbursement information provided by Boston Scientific Corporation is gathered from third-party sources and is subject to change without notice as a result of complex and frequently changing laws, regulations, rules and policies. This information is presented for illustrative purposes only and does not constitute reimbursement or legal advice. Boston Scientific encourages providers to submit accurate and appropriate claims for services. It is always the provider's responsibility to determine medical necessity, the proper site for delivery of any services and to submit appropriate codes, charges, and modifiers for services that are rendered. Boston Scientific recommends that you consult with your payers, reimbursement specialists and/or legal counsel regarding coding, coverage and reimbursement matters. Boston Scientific does not promote the use of its products outside their FDA-approved label.

Current as of September, 2025. Information is subject to change without notice.
