

2021 Coding & Payment Quick Reference

Percutaneous Endoscopy Procedures

Payer policies will vary and should be verified prior to treatment for limitations on diagnosis, coding or site of service requirements. The coding options listed within this guide are commonly used codes and are not intended to be an all-inclusive list. We recommend consulting your relevant manuals for appropriate coding options. The following codes are thought to be relevant to Percutaneous Endoscopic procedures performed in the hepatobiliary system and are referenced throughout this guide.

All rates shown are 2021 Medicare national average payments. Actual reimbursement will vary for each provider and institution for a variety of reasons including geographic difference in labor and non-labor costs, hospital teaching status, and/or proportion of low-income patients. On average, private payers pay more than Medicare.⁵

Please note: this coding information may include codes for procedures for which Boston Scientific currently offers no cleared or approved products. In those instances, such codes have been included solely in the interest of providing users with comprehensive coding information and are not intended to promote the use of any Boston Scientific products for which they are not cleared or approved, including the SpyGlass™ Discover Digital Catheter

Medicare Hospital Inpatient Payment

MS-DRG assignment is based on a combination of diagnoses and procedure codes reported. While MS-DRGs listed in this guide represent likely assignments, Boston Scientific cannot guarantee assignment to any one specific MS-DRG.

MS-DRGs resulting from inpatient percutaneous endoscopy procedures may include (but are not limited to):

MS-DRG	Description	Hospital Inpatient Medicare National Average Payment [†]
356	Other Digestive System O.R. Procedures with MCC	\$27,583
357	Other Digestive System O.R. Procedures with CC	\$14,486
358	Other Digestive System O.R. Procedures without CC/MCC	\$8,606
405	Pancreas, Liver and Shunt Procedures with MCC	\$36,833
406	Pancreas, Liver and Shunt Procedures with CC	\$18,492
407	Pancreas, Liver and Shunt Procedures without CC/MCC	\$13,601
408	Biliary Tract Procedures Except Only Cholecystectomy with or without C.D.E. with MCC	\$24,100
409	Biliary Tract Procedures Except Only Cholecystectomy with or without C.D.E. with CC	\$13,590
410	Biliary Tract Procedures Except Only Cholecystectomy with or without C.D.E. without CC/MCC	\$10,064
411	Cholecystectomy with C.D.E. with MCC	\$24,119

Health economic and reimbursement information provided by Boston Scientific Corporation is gathered from third-party sources and is subject to change without notice as a result of complex and frequently changing laws, regulations, rules, and policies. This information is presented for illustrative purposes only and does not constitute reimbursement or legal advice. Boston Scientific encourages providers to submit accurate and appropriate claims for services. It is always the provider's responsibility to determine medical necessity, the proper site for delivery of any services, and to submit appropriate codes, charges, and modifiers for services rendered. It is also always the provider's responsibility to understand and comply with Medicare national coverage determinations (NCD), Medicare local coverage determinations (LCD), and any other coverage requirements established by relevant payers which can be updated frequently. Boston Scientific recommends that you consult with your payers, reimbursement specialists, and/or legal counsel regarding coding, coverage, and reimbursement matters. Boston Scientific does not promote the use of its products outside their FDA-approved label. Information included herein is current as of December 2020 but is subject to change without notice. Rates for services are effective January 1, 2021.

† Comprehensive APCs (C-APCs): In 2014, CMS implemented their C-APC policy with the goal of identifying certain high-cost device-related outpatient procedures (formerly "device intensive" APCs). CMS has fully implemented this policy and has identified these high-cost, device-related services as the primary service on a claim. All other services reported on the same date will be considered "adjunctive, supportive, related or dependent services" provided to support the delivery of the primary service and will be unconditionally packaged into the OPPS C-APC payment of the primary service with minor exceptions.

‡ The 2021 National Average Medicare physician payment rates have been calculated using a 2021 conversion factor of \$34.8931. Rates subject to change.
