

Summary of Final FY2023 Medicare Policy and Payment Changes Hospital Inpatient Prospective Payment System (IPPS)

On August 1, 2022, the Centers for Medicare & Medicaid Services (CMS) released the final rule for the fiscal year (FY) 2023 Medicare Hospital Inpatient Prospective Payment System (IPPS). Policies and payment rates will take effect on October 1, 2022. Overall Medicare operating payment rates for hospital inpatient services will increase 4.3%. This is higher than the 3.2% proposed, which CMS attributes to a “revised outlook” regarding the US economy. CMS estimates that total hospital inpatient payments will increase by \$2.6B compared to FY 2022.

The table on page 3 of this document lists the final national average payment rates and percent changes for select Rhythm Management (RM), Interventional Cardiology (IC), and Peripheral Interventions (PI) procedures.

Policy Proposals

MS-DRG Rate Setting

CMS finalized the use of the most current data available (FY 2021) for FY 2023 rate setting and also finalized proposed adjustments to mitigate the impact of COVID on the FY 2023 rates, including using an average of the Diagnosis Related Group (DRG) weights calculated using all FY 2021 claims and FY 2021 claims *excluding COVID-19 cases*. CMS also finalized a permanent 10% cap on one-year decreases in individual DRG relative weights.

Health Equity

CMS finalized the addition of a quality measure regarding hospital promotion of health equity to the Inpatient Quality Reporting program but is not adding this measure to the Hospital Readmissions Reduction Program (HRRP) at this time.

Hospital Value-Based Purchasing (VBP) Programs

CMS finalized revisions to the three hospital pay-for-performance programs (Hospital-Acquired Condition Reduction Program, Hospital Readmissions Reduction Program, and Hospital Value-Based Purchasing Program) to mitigate the negative impacts of COVID on hospital performance ratings.

Payment Updates for Select Procedures of Interest

RHYTHM MANAGEMENT (% weighted averages shown)

- ICD and CRT-D system implant payment rates will decrease 0.5%
- ICD and CRT-D generator replacement payment rates will decrease 3.6%
- Pacemaker and CRT-P system implant payment rates will decrease 3.3%
- Pacemaker and CRT-P generator replacement payment rates will decrease 3.9%
- Pacemaker revisions will increase 1.3%
- LuxDx: Insertion of subcutaneous cardiac rhythm monitor implant payment rates for:
 - Syncope will increase 2.5%
 - Cryptogenic Stroke (atrial fibrillation) will increase 2.5%

FY2023 Medicare Final Rules Issued for Hospital Inpatient Prospective Payment System (IPPS)

- EP: Intracardiac ablation payment rates will increase 6.9%
- Leadless cardiac pacemaker payment rates will decrease 2.2%

INTERVENTIONAL CARDIOLOGY (% weighted averages shown)

Coronary Therapies

- Drug-eluting stent (DRGs 246-247) payment rates will increase 0.2%
- Bare metal stent (DRGs 248-249) payment rates will decrease 0.2%
- PCI without stent (DRGs 250-251) payment rates will increase 0.7%
- Circulatory Support payment rates for:
 - Cardiogenic Shock (DRG 215) payment rates will increase 1.5%
 - High-Risk PCI (DRGs 216-221) payment rates will increase 3.7%

LAAC / Structural Heart

- WATCHMAN/Intracardiac Ablation (DRGs 273-274) payment rates will increase 6.9%
- TAVR (DRGs 266-267) payment rates will decrease 3.5%

PERIPHERAL INTERVENTIONS (% weighted averages shown)

- EKOS™ Endovascular System for pulmonary embolism DRG payments (DRGs 166, 167, and 168) will increase 2.4%, 8.7%, and 8.9%, respectively.
- Percutaneous transluminal angioplasty (PTA), stent and atherectomy revascularization DRG payments (DRGs 252, 253 and 254) will increase 4.6%, 4.8%, and 4.8%, respectively.
- Carotid artery stenting (DRGs 034, 035 and 036) will increase 4.6%, 1.5% and 5.6%, respectively.
- All PI procedural categories have proposed median increases of ~4.0%.

This information is presented for illustrative purposes only and does not constitute reimbursement or legal advice.

Boston Scientific encourages providers to submit accurate and appropriate claims for services. **It is always the provider's responsibility to determine medical necessity, the proper site for delivery of any services, and to submit appropriate codes, charges, and modifiers for services rendered.**

It is also always the provider's responsibility to understand and comply with Medicare national coverage determinations (NCD), Medicare local coverage determinations (LCD), and any other coverage requirements established by relevant payers which can be updated frequently. Boston Scientific recommends that you consult with your payers, reimbursement specialists, and/or legal counsel regarding coding, coverage, and reimbursement matters.

Boston Scientific does not promote the use of its products outside their FDA-approved label.

Payer policies will vary and should be verified prior to treatment for limitations on diagnosis, coding, or site of service requirements.

The coding options listed within this guide are commonly used codes and are not intended to be an all-inclusive list. We recommend consulting your relevant manuals for appropriate coding options.

This coding information may include codes for procedures for which Boston Scientific currently offers no cleared or approved products. In those instances, such codes have been included solely in the interest of providing users with comprehensive coding information and are not intended to promote the use of any Boston Scientific products for which they are not cleared or approved. The Health Care Provider (HCP) is solely responsible for selecting the site of service and treatment modalities appropriate for the patient based on medically appropriate needs of that patient and the independent medical judgment of the HCP.
