

Internship and Co-op FAQ

When can I apply for an internship or co-op?

We will have internship roles posted throughout the fall and spring seasons. Please join the talent community and set up job alerts to stay informed on when opportunities become available.

Where do I apply for an internship or co-op?

<https://www.bostonscientific.com/en-US/careers.html>

(search job openings using keywords “internship,” “intern,” or “co-op”)

How long are the summer internship and co-op programs?

Internships: 12 weeks from mid-May to mid-August.

Co-ops: 6 months from January to July and July to December but can vary based on program.

What are the intern and co-op qualifications?

Intern qualifications: Must be a December 2025 to May 2026 graduate (rising senior), a May 2024 graduate continuing on to graduate school, or a current graduate student to be eligible. A student must have at least one semester of school left to complete post-internship to be eligible.

*There may be instances where we would consider hiring a rising junior. If you are a rising junior, please be on the lookout for us at career fairs for networking opportunities

Co-op qualifications: Must be a December 2026 to May 2027 graduate (rising sophomore) or above. Students who are graduating during their co-op term with us would be eligible.

Where are the Internships and Co-ops located?

- East (Marlborough, Mass.; Waltham, Mass.; Quincy, Mass.; Alpharetta, Ga.; Coventry, R.I.)
- Minnesota (Arden Hills, Minn., Maple Grove, Minn., Minnetonka, Minn.)
- California (Valencia, Calif.)

What are the perks of the Internship program?

- Housing for eligible sites
- Bus transportation for Mass.- and Minn.-based internships and co-ops, if eligible
- Summer Fridays
- Fitness centers
- Networking opportunities
- Access to Employee Resource Groups
- Volunteering and social team building events
