1) Definitions; Parties' Relationship. Whenever used in this purchase order ("Order"), these terms shall have the following meanings: (i)

"Buyer" means Boston Scientific Corporation or one of its subsidiaries or affiliates set forth on the front of this Order; (ii) "Seller" means

the person, partnership, corporation or other entity specified as the Seller on the front of this Order; (iii) "Goods" means: (a) all articles,

materials, products, components, supplies, drawings, designs, prototypes, models, data, documents, goods and other items furnished or

to be furnished under this Order to Buyer ("Tangible Goods"); (b) all services (including design, delivery installation, inspection, testing,

etc.) specified on, or required to be furnished under this Order ("Services"); and (c) all software programs, applications, tools and

databases ("Software") licensed or otherwise transferred to Buyer under this Order and all related development, support and maintenance services ("Software Services"); and (iv) "Specifications" means the specifications in the part number and revision-level

controlled drawing for the applicable Goods that is referenced on the front of this Order and/or other writings, drawings, etc. provided by

Buyer to Seller on or before issuance of this Order and all requirements of any applicable laws and regulations. Buyer and Seller each

represent that it is acting on its own behalf as an independent contractor and is not acting as an agent for or on behalf of any third party.

2) Complete Agreement. This Order: (i) constitutes an offer by Buyer to Seller to purchase the Goods on the terms and conditions stated

in this Order; (ii) becomes a binding contract upon acceptance either by acknowledgment or performance by Seller; and (iii) constitutes

the sole and entire agreement between the parties relating to the subject matter hereof and supersedes all prior understandings,

agreements, transactions and communications, whether oral or written, with respect to the matters referred to herein, unless Buyer and

Seller have executed a separate written document which specifically states that the terms of that document prevail. No other terms or

conditions and no modification, alteration or amendment of this Order shall be binding upon Buyer unless accepted in writing by an

authorized representative of Buyer. Buyer expressly rejects any terms and conditions contained in any quote, proposal, invoice or similar

document presented by Seller at any time.

3) Delivery. Seller's delivery or performance shall be made strictly in accordance with the date(s) specified on the front of this Order. If

Goods are not delivered or performed (as applicable) by the specified time, Buyer shall have the option of: (i) purchasing the Goods

elsewhere and charging Seller with any loss resulting therefrom; (ii) approving in writing a revised delivery schedule; and/or (iii) canceling

this Order, or any part thereof, without prejudice to its other rights. With respect to any part of this Order so canceled, Buyer may, at its

option, if applicable, either return the materials to Seller, at Seller's risk and expense, or charge Seller a reasonable storage charge until

Seller removes such materials. Goods fabricated or services provided in excess of Buyer's authorization are at Seller's risk. Unless

otherwise agreed by Buyer in advance in writing, invoices covering Goods received ahead of schedule will not be paid until the date

specified by Buyer for delivery. Seller shall be responsible for any and all loss of, or damage to, the Goods until the Goods have been

received and accepted by Buyer.

4) Assignment; Sub-contracting. No rights of Seller under this Order (including rights to monies due) are assignable in whole or in part,

nor is Seller permitted to subcontract any obligation under this Order without Buyer's prior written consent. All terms of this Order shall be

binding upon, and shall accrue to the benefit of, the successors and permitted assigns of the parties hereto. Seller shall take all steps

required to ensure that each of Seller's employees, agents and subcontractors (collectively, "Seller's Representatives") comply with all provisions of this Order as if such person is the Seller. In any case, assigned accounts shall be subject to set-off, recoupment or any other claim of Buyer against Seller.

5A) Warranties for Tangible Goods. Seller warrants that all Tangible Goods: (i) are free from defects in workmanship, material, and manufacture; (ii) comply with the requirements of this Order, including the Specifications and samples furnished by either Buyer or Seller if Buyer has approved them for that purpose; (iii) where design is Seller's responsibility, are free from defects in design; (iv) consist only of new materials (unless the Specifications specify otherwise); and (v) are of merchantable quality and fit and suitable for the purpose intended by Buyer. Seller shall maintain documentation of the manufacturing process (including dates, methods of manufacture, materials used, unscheduled interruptions or delays, and other factors that affect the quality, form, fitness, function and suitability of the Tangible Goods). These warranties: (a) constitute conditions to Buyer's acceptance of the Tangible Goods, (b) are in addition to all other warranties, whether express or implied, created by law, and (c) survive inspection of, acceptance of, and payment for, the Tangible Goods. Buyer's approval of the design, or of the materials, used in the manufacture of the Tangible Goods does not relieve Seller of the warranties in this Section, nor does the waiver by Buyer of any Specification requirement for one or more items constitute a waiver of those requirements for the remaining items of Tangible Goods unless so stated by Buyer in writing. Seller further warrants and represents that all Goods purchased are free from liabilities of royalties; license fees; mechanics material and other liens; security interests; encumbrances; and defects in other title.

5B) Warranties for Services and Software Services. Seller warrants that: (i) the Services and the Software Services will be provided in a professional manner by qualified personnel and comply with the requirements of this Order, including the Specifications; (ii) the deliverables from the Services or Software Services will not infringe or violate any third party patent, trademark, copyright, trade secret or other intellectual property right and will be free from liabilities of royalties and licensing fees other than any specified on the front of this Order; and (iii) performance of the Services or Software Services will not violate or breach any contractual obligations of Seller, including those related to confidentiality, non-competition or intellectual property rights. These warranties survive inspection of, acceptance of, and payment for, the deliverables from the Services or Software Services and are in addition to all other warranties, whether express or implied, created by law.

5C) Warranties for Software. Seller warrants that: (i) Seller has all rights necessary to grant the license to Buyer, free and clear of all liens, encumbrances and other claims; (ii) the grant of the license and use of the Software by Buyer, in accordance with the documentation provided, does not and will not infringe or violate any third party patent, trademark, copyright, trade secret or other intellectual property right and will be free from liabilities of royalties and licensing fees other than any specified on the front of this Order; and (iii) the Software will operate in accordance with, and conform to, the documentation provided, the Specifications and other requirements of the Order. Seller warrants that the source code of the Software is the subject of an escrow agreement for the benefit of Seller's licensees. If requested by Buyer, Seller shall provide Buyer with information related to the escrow of the source code of the Software, including the name of the escrow agent and the conditions and procedures for Buyer to access the source code. These warranties survive inspection of, acceptance of, and payment for, the Software by Buyer and are in addition to all other warranties, whether express or implied, created by law.

6) Price and Payment. Payment of the prices specified in this Order shall constitute full consideration for the Goods and rights granted hereunder. Such prices: (a) shall be subject to adjustment only as specifically provided for on the front of this Order, and (b) include all applicable taxes, assessments and other amounts payable to governmental authorities unless otherwise specified on the front of this Order. If certain taxes, assessments or other amounts payable to governmental authorities are specified on the front of this Order, Seller shall promptly invoice Buyer for those, Buyer shall pay them to Seller, and Seller shall promptly report and pay the governmental authorities for those. Any time period specified in this Order for payment or applying any discounts shall commence on the later of the date that Buyer: (i) receives Seller's correct invoice thereof at Buyer's address for invoices; (ii) receives the bill of lading or express receipt and packing list therefore, if applicable; or (iii) accepts the Goods (together with any specified documentation) as conforming to all Specifications and requirements of this Order. In no event shall Buyer owe Seller any late or penalty payment or interest. Buyer shall have the right to set-off against any amounts which may become payable by Buyer to Seller under this Order or otherwise, any amounts which Seller may owe to Buyer, whether arising under this Order or otherwise. By acceptance of this Order, Seller warrants that the prices charged hereunder are not in excess of Seller's current selling price to any other purchaser of the same or substantially similar goods or services taking into consideration for the: (i) Tangible Goods, the quantities and delivery requirements; (ii) Services and Software Services, the level of skill, experience and training required; and (iii) Software, the nature of the license and non-price terms. If it is determined that the prices charged herein are in excess of such prices, Seller shall refund promptly to Buyer the excess.

7) Invoicing. Invoices must be sent to the address specified on the front of this Order. Unless otherwise specified on the front of this Order or agreed by the parties, a separate invoice shall be issued by Seller for each shipment, and billing for partial shipment will not be honored by Buyer. Except as otherwise agreed in writing by Buyer, Seller shall not issue an invoice prior to shipment of the Goods and no payment will be made by Buyer prior to its receipt of the Goods and a correct invoice. Invoices must contain at least the following information: Order number, description of the Goods, and the following as applicable: (i) shipping route, number of packages, serial numbers, item numbers, quantity, size and unit price for each of the Tangible Goods; (ii) hours worked, cost of materials provided if the front of this Order indicates that such costs are reimbursable, reimbursable expenses for the Services and Software Services if the front of this Order indicates that such expenses are reimbursable and are pre-approved by Buyer; and (iii) term, scope and nature of the Software licensed. Invoices not containing such information may result in payment delays by Buyer, and such delays shall not subject Buyer to any penalty, interest or additional charge. Buyer's failure to object to provisions in Seller's quotation, invoice or other communications which conflict with the terms of this Order shall not be deemed a waiver of the terms and conditions of this Order, which shall prevail.

8) Transportation; Packing. All Tangible Goods shall be packed in accordance with Specifications provided by Buyer, or, if no Specifications are provided, otherwise suitably packed in order to protect the Tangible Goods fully during transportation and secure the lowest available transportation costs. All Tangible Goods shall be shipped in accordance with Buyer's instructions, or in the absence of such instructions, by the route and method of transportation sufficient to meet applicable delivery dates utilizing the lowest appropriate, available transportation costs. Excess transportation costs otherwise incurred will be charged to Seller or applied as a set-off from any amount due from Buyer to Seller. When usual terms or tariffs do not include insurance, shipments must be forwarded properly insured to their full sales price hereunder at Seller's expense. No charge shall be incurred for freight, shipping, packing, insurance,

boxing, storage
or drayage unless authorized by Buyer in advance in writing. Buyer's order numbers and symbols must be plainly marked on
all invoices,
packages, bills of lading and shipping orders. A packing slip bearing a complete record of the shipment (including the number

information
certified by an authorized individual as may be requested by Buyer from time to time in connection with Seller's and/or Buyer's
compliance with applicable laws; and (iii) the Tangible Goods sold and furnished hereunder shall be manufactured, sold,
delivered and
furnished, and the Services and Software Services shall be performed, each in strict compliance with all applicable federal,
state and
local laws and regulations of all governmental authorities, including the Robinson-Patman Act and the Fair Labor Standards
Act of 1938,
as amended. All laws and regulations required by their terms to be incorporated in agreements of this type are hereby
incorporated
herein by reference. Seller shall, upon request of Buyer, furnish Buyer with a certificate specifying Seller's compliance with
any or all such
laws and the provisions herein, in such form as Buyer may require. Without limiting the generality of the foregoing, if Seller

laws and
regulations, including all taxes on payroll or contributions on account of social security, unemployment insurance and federal
or state

this Order,
Seller is not excluded, debarred, or otherwise suspended from participating in U.S. government procurement and non-
procurement
programs (collectively, "US Programs"). If during the course of providing Goods under this Order, Seller becomes excluded,
debarred or
otherwise suspended from participating in any US Program ("US Program Exclusion"), Seller shall immediately disclose details

and every
contract between Buyer and Seller.

11A) Inspection and Approval of Tangible Goods. Buyer may elect to inspect Tangible Goods before and/or after delivery and
acceptance. Payment shall not constitute final acceptance. Upon discovery by Buyer that the Tangible Goods contain any
defect (patent

to: (i) reject
the Tangible Goods, or if the Tangible Goods have been accepted by Buyer, return them to Seller at Seller's risk and expense
and

price

If any Claim is commenced against an Indemnified Party, Buyer shall provide notice to Seller as promptly as practicable. The failure to provide such notice will relieve Seller of Seller's obligations hereunder only to the extent that Seller is prejudiced by the failure to receive notice. If an injunction is granted, or in Seller's opinion likely to be granted, under clause (ii) of the preceding paragraph, Seller, as directed by Buyer, shall: (a) refund to Buyer the payment made by Buyer for the Goods subject to the Claim; or (b) deliver promptly to Buyer an acceptable, non-infringing replacement. 15) Strict Compliance; Waiver; Severability. Buyer may at any time insist upon strict compliance with this Order's terms and conditions, notwithstanding any previous custom, practice, or course of dealing to the contrary. The failure of either Buyer or Seller to enforce any of its rights under this Order shall not constitute a waiver of such rights. If any provision of this Order shall be determined to be partially void or unenforceable by any court or body of competent jurisdiction or by virtue of any legislation to which it is subject or by virtue of any other reason whatsoever, it shall be void or unenforceable to that extent only and no further, and the validity and enforceability of any of the other provisions of this Order shall not be affected.

16) Changes. No changes or substitutions can be made to Goods specified by Buyer, or to the processing of Goods, without Buyer's prior written approval. Buyer may, by written change notice, suspend work at any time before completion of the order, or make changes in quantities, drawings, specifications, delivery schedules and dates and methods of shipment and packaging. If such changes would cause an increase or decrease in the amount due under this Order, or in the time required for Seller's performance, an equitable adjustment shall be made and the order shall be modified accordingly in writing in advance. Any claim for adjustment must be asserted by Seller in writing within 15 days from the date the change is ordered. Buyer may reasonably request that Seller measure and report its sustainability and environmental progress and improvements to Buyer on a form provided by Buyer. If Seller provides goods or services to a Buyer location with a certified environmental management system, Seller agrees to comply with that location's operational controls relevant to Seller's activities, goods or services including those related to established significant environmental aspects.
