****Note:** Initial stocking order requires a minimum order of 6 catheters (covering the complete treatment of 2 patients).

Brief Statement of Relevant Indications for Use, Contraindications, Warnings, and Adverse Events: The Alair™ Bronchial Thermoplasty System is indicated for the treatment of severe persistent asthma in patients 18 years and older whose asthma is not well controlled with inhaled corticosteroids and long-acting beta-agonists. The Alair System is not for use in patients with an active implantable electronic device or known sensitivity to medications used in bronchoscopy. Previously treated airways of the lung should not be retreated with the Alair System. Patients should be stable and suitable to undergo bronchoscopy. The most common side effect of BT is an expected transient increase in the frequency and worsening of respiratory-related symptoms. ENDO-551804-AA

GUIDEPOINT REIMBURSEMENT RESOURCES AND SOLUTIONS

The Endoscopy Health Economics and Market Access (HEMA) Team offers a suite of reimbursement services and support for healthcare professionals seeking a better understanding of reimbursement for Boston Scientific's endoscopy and pulmonary products and procedures. We can help you develop a base level of knowledge in coding, coverage and payment for these procedures and offer educational presentations and webinars on changes in healthcare policies and Medicare reimbursement and changes to Medicare reimbursement impacting providers and facilities.

About Our Team

Boston Scientific Endoscopy's HEMA Team is comprised of highly skilled professionals specializing in reimbursement, health economics and health policy issues. The team has a broad background with experience working for public and private payers, medical associations, healthcare consulting agencies and academic research organizations. We use clinical and economic outcomes data and collaborate with outside experts to promote appropriate coding, coverage and reimbursement for Boston Scientific endoscopy and pulmonary products and procedures.

Contact Information

For more information about Boston Scientific Endoscopy's GuidePoint Reimbursement Resources and Solutions, please contact our **Health Economics and Reimbursement department at 800-876-9960 x54510 or ENDOREIMBURSEMENT@bsci.com**.

GUIDEPOINT
Reimbursement Resources

Health economic and reimbursement information provided by Boston Scientific Corporation is gathered from third-party sources and is subject to change without notice as a result of complex and frequently changing laws, regulations, rules and policies. This information is presented for illustrative purposes only and does not constitute reimbursement or legal advice. Boston Scientific encourages providers to submit accurate and appropriate claims for services. It is always the provider's responsibility to determine medical necessity, the proper site for delivery of any services and to submit appropriate codes, charges, and modifiers for services that are rendered. Boston Scientific recommends that you consult with your payers, reimbursement specialists and/or legal counsel regarding coding, coverage and reimbursement matters. Boston Scientific does not promote the use of its products outside their FDA-approved label.

► Solutions

Boston Scientific's Endoscopy business develops less invasive medical devices for treating gastrointestinal diseases. We are committed to providing clinically proven technologies, services and customer support to help healthcare providers improve patient outcomes while reducing the total cost of patient care.

ADVANTICS™ INNOVATIVE HEALTHCARE SOLUTIONS

ADVANTICS™ Innovative Healthcare Solutions is a new way to collaborate to meet your specific challenges in the changing healthcare landscape. ADVANTICS recognizes that every provider is unique and that only by working together can we find truly effective solutions.

GI SPECIALIZED PATHOLOGY

Diagnostics for GI Diseases. Getting an accurate and timely diagnosis is critical to patient care.

GI Specialized Pathology services include GI subspecialty trained pathologists, GI trained histotechnicians to help ensure proper slide orientation, and customer service teams dedicated to improving efficiencies and the diagnosis process for physicians and their patients. Today, of the top diagnostic labs in the U.S., ours is the only pathology lab focused solely on GI diseases.

SCOPE REPAIR

Capital Equipment Management. As an alternative to original equipment manufacturer (OEM) and costly service contracts, scope repair services and certified pre-owned equipment are offered through a partnership with Total Scope, Inc. Established in 1993, Total Scope is focused on providing excellent customer service, including scope maintenance education and training for its customers. The company is certified to the quality standard ISO 13485, for the service, repair and maintenance of medical instrumentation. Total Scope is a woman-owned business.

GI LAB OPTIMIZATION

Endoscopy Lab and Continuous Improvement. GI Lab Optimization services are designed to address specific customer issues related to quality, cost, safety, and staff and patient satisfaction. A mix of Lean Six Sigma, project management and Human Centered Design expertise can be used to tailor solutions to your needs for endoscopy lab optimization.

All product offerings, prices and specifications are subject to change without notice.

Notice

Indications, contraindications and instructions for use, as well as product warranty information, if applicable, can be found in the product labeling supplied with each device. Caution: Federal law restricts this device to sale by or on the order of a physician.

Warning Re: Single-Use Devices

Products marked as “single-use” are for single use only. Do not reuse, reprocess or resterilize single-use products. Reuse, reprocessing or resterilization may compromise the structural integrity of the device and / or lead to device failure which in turn may result in patient injury, illness or death. Reuse, reprocessing or resterilization may also create a risk of contamination of the device and / or cause patient infection or cross-infection, including, but not limited to, the transmission of infectious disease(s) from one patient to another. Contamination of the device may lead to injury, illness or death of the patient. **BSC assumes no liability with respect to single-use devices reused, reprocessed or resterilized and makes no warranties, express or implied, including, but not limited to, any implied warranties of merchantability or fitness for a particular purpose, with respect to any such instrument.**

INDICATIONS FOR USE

The WallFlex™ Biliary RX Fully Covered Stent System RMV is indicated for use in the palliative treatment of biliary strictures produced by malignant neoplasms, relief of malignant biliary obstruction prior to surgery and for indwell up to 12 months in the treatment of benign biliary strictures secondary to chronic pancreatitis.

LIMITATIONS

The sale, distribution, and use of the device are restricted to prescription use in accordance with 21 CFR §801.109.

Contraindications:

- The WallFlex Biliary RX Fully Covered Stent System RMV should not be placed in strictures that cannot be dilated enough to pass the delivery system, in a perforated duct, or in very small intrahepatic ducts.
- The WallFlex Biliary RX Fully Covered Stent System RMV should not be used in patients for whom endoscopic techniques are contraindicated.

Warnings:

- The safety and effectiveness of the stent for benign stricture treatment has not been established for indwell periods exceeding 12 months.
- The WallFlex Biliary RX Fully Covered Stent System RMV is for single-use only.
- The safety and effectiveness of the WallFlex Biliary RX Fully Covered Stent System RMV for use in the vascular system has not been established.
- Clinical Study was not able to demonstrate that the use of this device is safe and effective in the treatment of benign biliary post liver transplantation anastomotic strictures and of benign biliary post abdominal surgery strictures.
- Testing of overlapped stents has not been conducted.
- The stent contains nickel, which may cause an allergic reaction in individuals with nickel sensitivity.

PLEASE REFER TO THE LABELING FOR A MORE COMPLETE LIST OF WARNINGS, PRECAUTIONS AND CONTRAINDICATIONS.
