

Be a Leader in Bariatric and Gastrointestinal Procedures

OverStitch™
Endoscopic Suturing System

The OverStitch™ Endoscopic Suturing System enables advanced endolumenal surgery by allowing physicians to place **full-thickness sutures** through a flexible endoscope. With the capability to **customize suture patterns**, OverStitch™ facilitates a **broad range** of bariatric and gastrointestinal procedures.

Full thickness sutures incorporate muscle layer to help increase tissue approximation durability.

Customize suture patterns to address simple or complex gastrointestinal and bariatric procedures
