AngioJet Ultra Thrombectomy System

MECHANISM OF ACTION

1. Saline jets travel backwards causing a low pressure zone creating a vacuum effect.

2. The Console energizes the pressurized saline to cause a vacuum effect.

3. The Console energizes pressurized saline via the waste tubing to cause a vacuum effect.

4. The Console energizes pressurized saline via the waste tubing to cause a vacuum effect.

5. Thrombus is evacuated from the body and into the collection bag.

SOLENT CATHETERS COMBINED INCOMPATIBLE

Refer to the IFU for complete cross-incompatibilities for all drugs and solutions.

INDICATIONS AND USAGE

The AngioJet Ultra Console is intended for use with the AngioJet Ultra Catheter to break apart and remove thrombus • upper and lower extremity peripheral arteries and veins • atrial and ventricular remodel for the control and selective infusion of physician-prepared thrombolytic agents, into the peripheral vascular system. The AngioJet Ultra Thrombectomy Set is intended for use with the AngioJet Ultra Console to break apart and remove thrombus from • upper and lower extremity peripheral arteries and veins • atrial and ventricular remodel for the control and selective infusion of physician-prepared thrombolytic agents, into the peripheral vascular system. In addition to the indications listed in the IFU, it may also be used for the control and selective infusion of saline, including saline, heparinized saline, and contrast media.

CONTRAINDICATIONS

Do not use the AngioJet Ultra System in the following situations:

1. Do not use in the presence of active or recent arterial bleeding or pseudoaneurysm.
2. Do not use in the presence of active or recent occlusion of the catheter or guide wire.
3. Do not use in the presence of active or recent myocardial infarction.
4. Do not use in the presence of active or recent acute renal failure.
5. Do not use in the presence of active or recent acute myocardial infarction.
6. Do not use in the presence of active or recent acute renal failure.
7. Do not use in the presence of active or recent acute myocardial infarction.
8. Do not use in the presence of active or recent acute renal failure.

WARNINGS AND PRECAUTIONS

• Use the AngioJet Ultra Console to break apart and remove thrombus from the peripheral vascular system.
• Use the AngioJet Ultra Thrombectomy Set to break apart and remove thrombus from the peripheral vascular system.
• Use the AngioJet Ultra Console and Thrombectomy Set only with the AngioJet Ultra System.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.
• Use the AngioJet Ultra System with the AngioJet Ultra Console and Thrombectomy Set only.

**Power Pulse Delivery**

Delivers medication directly into the clot, where it’s most effective, saturating and softening tough thrombus for easier removal.
