

# LONG STORY, (Not) Short.

## **AMS 700™ LGX Penile Prosthesis** **The Only Penile Implant with Cylinders Designed** **to Expand in LENGTH and GIRTH**

- Prostate cancer and penile straightening procedures may result in loss of penile length<sup>1,2</sup>
- Penile shortening – real or perceived – may be devastating to a man's self confidence and may cause significant anxiety
- AMS 700 LGX Prosthesis provides patients with the most optimal opportunity to regain lost length or preserve penile length<sup>3-5</sup>

Prior to use, please review the Instructions for Use for a complete listing of indications, contraindications, warnings, precautions and potential adverse events.

**CAUTION:**

Federal Law restricts this device to sale by or on the order of a physician. This product is only intended for physicians trained in its use.

**INDICATIONS:**

The AMS 700™ Series Inflatable Penile Prosthesis is intended for use in the treatment of chronic, organic, male erectile dysfunction (impotence).

**CONTRAINDICATIONS:**

Patients who have active urogenital infections or active skin infections in the region of surgery or for the AMS 700 prosthesis with InhibiZone™, have a known sensitivity or allergy to rifampin, minocycline, or other tetracyclines.

**WARNINGS:**

Implantation will make latent natural or spontaneous erections, as well as other interventional treatment options, impossible. Men with diabetes, spinal cord injuries or open sores may have an increased risk of infection. Implantation may result in penile shortening, curvature, or scarring.

**POTENTIAL ADVERSE EVENTS:**

Urogenital pain (usually associated with healing), edema, ecchymosis and erythema; reservoir encapsulation; patient dissatisfaction; auto-inflation; mechanical malfunction; impaired urination; and infection.
