Rezūm™ Water Vapor Therapy
Rezūm™ Water Vapor Therapy uses the natural energy stored in water vapor, or steam, available to relieve symptoms associated with benign prostatic hyperplasia (BPH).

During each 9 second treatment, sterile water vapor is released throughout the targeted prostate tissue. When the steam turns back into water, all the stored energy is released, causing the cells to die.

Over time, your body’s natural healing response removes the dead cells, shrinking the prostate. With the extra tissue removed, the urethra opens, reducing BPH symptoms.

**Why Rezūm Water Vapor Therapy?**

- No more BPH medications and their side effects
- Most patients see symptom improvement within 2 weeks
- Simple in-office therapy that doesn’t require general anesthesia
- Preserves erectile and urinary functions
- Most patients return to regular activities within a few days
- No permanent implant
- Considered a covered benefit by Medicare and most private insurance

Talk to your doctor to see if Rezūm Water Vapor Therapy is right for you, or learn more at [www.TreatMyBPH.com](http://www.TreatMyBPH.com)
