**What Is Rezūm™ Water Vapor Therapy?**

A minimally invasive procedure to treat BPH, not just the symptoms

**Where is the Procedure Performed?**

In a doctor’s office, clinic or other outpatient

**How Many Patients Have Been Treated With Rezūm Therapy?**

More than 70,000 patients to date and growing in the United States**

**Is Rezūm Therapy Covered by Insurance?**

It is the responsibility of the provider to confirm specific payer coverage and reimbursement

**How Soon Can I Return to Regular Activities Following The Procedure?**

A procedure in about 30 minutes, followed by a wait period, which may range from 24 to 48 hours. This will depend on the patient’s individual healing

**What Are the Potential Risks?**

Potential risks associated with Rezūm Water Vapor Therapy include but are not limited to painful or frequent urination, blood in the urine or semen, decrease in ejaculatory volume, urinary tract infection (UTI), inability to urinate or completely empty the bladder, and urgent need to urinate.
