

Ureteral Catheter Portfolio

BEGIN YOUR PROCEDURES WITH CONFIDENCE

Dual Lumen Ureteral Catheter

By helping deliver irrigation fluids to the ureter and drainage of fluids from the urinary tract, our dual-purpose catheter provides access, advancement or exchange of ancillary devices including guidewires.

- Designed for over-the-wire placement
- Provides two separate working channels for second wire placement or injection

Flexima™ Ureteral Catheter

The single lumen with injection hub provides access and collection.

- Various tip designs to facilitate access to the urinary tract
- Can be placed retrograde
- Radiopaque to aid in visualization

Axxcess™ Ureteral Catheter

The single lumen catheter with injection hub facilitates injection of contrast or establishment of post-procedure drainage collection.

- Tapered tip to provide atraumatic access for delivery of contrast or a guidewire
- Soft Percuflex™ material for ease of placement, graduated markers and radiopaque to facilitate visualization and placement

Imager™ II Ureteral Catheter

The single lumen, torqueable catheter is designed to facilitate access in PCNL and ureteroscopic procedures.

- Biocompatible polymer reinforced with a stainless steel braded wire
- Can be placed retrograde or antegrade
